

ACCESSORIES

SMART EVO series

- 4-legged tube stand
- Tripod tube stand
- Mobile tube stand
- Light-weight tube stand
- Lead cone package
- Collimators
- Warning lamps

For more than 50 years YXLON Copenhagen have manufactured high quality portable X-ray systems. Our systems have always been designed to be reliable and efficient in all conditions. In order to stay in this position, as a market leader, we draw on both our knowledge and experience.

Our experience has taught us that the application possibilities of YXLON portables and mobile products are numerous, and they all pose different challenges to both equipment and operator.

In order to meet these challenges a range of accessories has been designed. The accessory selection, for each product series, will help to make your workflow safe and more efficient.

4-legged tube stand

YXLON offers an agile tube stand solution for all directional portable tube heads, based on a 4-legged stand combined with a cradle for the tube head.

Once you have mounted the X-ray tube head in the tube stand, you can inspect elements from all angles, making exposures more accurate and less time-consuming.

Tripod tube stand

This tube stand supports a focus spot to floor distance, with a working range of 120 - 184 cm step less adjustment of vertical height, 360° rotation of tube cradle around vertical axis.

The tube head can be rotated 360° around the cradles horizontal axis, and the tilt adjustment feature makes for precise alignments.

Mobile tube stand

This tube stand is equipped with four wheels, and the focal spot to floor height can be adjusted between 47.5 cm and 85.5 cm.

The tube head can be positioned 360° around the horizontal axis.

Light-weight tube stand

Light-weight tube stand that's both easy to use and easy to move.

The focal spot to floor height can be adjusted between 56 cm and 112 cm.

The tube head can be positioned 360° around the horizontal axis.

Lead cone package

The package consists of a lead cone, additional filters, an adaptor flange and a light-weight tube stand.

The lead cone is premade for 10 x 48 cm films with a 700 mm film focus distance.

Collimators

Wide range of collimators supporting a range of different film sizes and film-focus distances.

An unmilled collimator is also available for local milling in order to be able to adopt any local applications.

Warning lamps

Reliable solution equipped with a 30 meter cable.

These lamps are offered with red or orange lights, depending on local requirements.
